LETTER OF COMPLIANCE  
FOR LETTER OF DEFICIENCY # WET 2004-04

August 25, 2004

Joseph and Barbara Dipierre  
788 Hilltop Road  
Littleton, NH 03561

RE: File #2003-00133, 788 Hilltop Road, Littleton

Dear Mr. and Ms. Dipierre:

On August 13, 2004, personnel from the Department of Environmental Services ("DES") conducted an inspection of the above-referenced property, more specifically referenced on Town of Littleton Tax Map 228 as Lot 10 (the "Property"). The purpose of the inspection was to determine compliance with RSA 482-A and applicable rules adopted under that statute, and specifically whether the deficiencies noted in the Letter of Deficiency issued to you on January 19, 2004, have been addressed.

As a result of this inspection, it was determined that the deficiencies described in the Letter of Deficiency have been corrected. DES will close its enforcement file regarding the Property at this time. DES reserves the right to reopen this matter should additional information be received regarding additional violations on the Property.

Please contact Dale Guinn of the DES Dam Bureau at 271-3406 to confirm that the structure no longer meets the criteria to be considered a dam. An as-built plan and or a site inspection may be required by the Dam Bureau to confirm that the current structure no longer meets current state standards for dam construction. As stated to you in our conversation of August 13, 2004, the area that was dredged is now a shallow marsh and the existing and restored wetlands adjacent to the shallow marsh is considered jurisdictional wetlands; therefore, please be advised that further work in wetlands, surface waters, or the bank requires a posted, approved permit prior to carrying out such work.

Thank you for your assistance in bringing this matter to a resolution. Should you have any questions, please contact me at (603) 271-4056 or by e-mail at [lmagoon@des.state.nh.us](mailto:lmagoon@des.state.nh.us).

Sincerely,  
  
Linda Magoon
